

BFBot Manager

Auto Loading from Google Sheets

I've put together this short guide to help with auto loading your football selections into BFBot Manager. Until Adam updates the football software to have the same functionality as the horse racing, this is the closest option I've found to be able to input selections into BFBM without actually touching the bot itself.

Part 1 – Setting Up Google Sheets

Make new blank Google Sheets spreadsheet.

Name the spreadsheet and set default columns for BFBot Manager

To share as csv file click on the Share button and change sharing to anyone who has the link.

Done

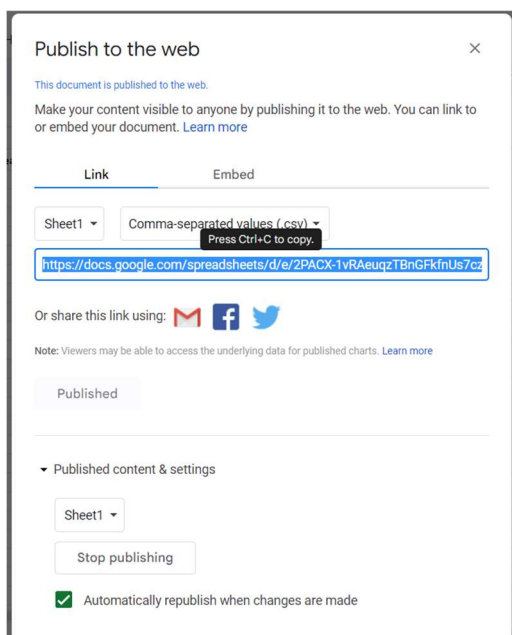

Go to Share the Publish to web.

Select .csv and publish either Sheet1 or Entire Sheet.

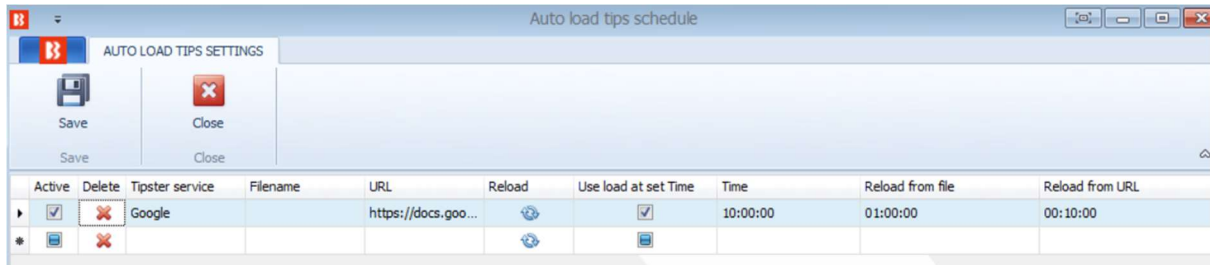

Once published, copy the link

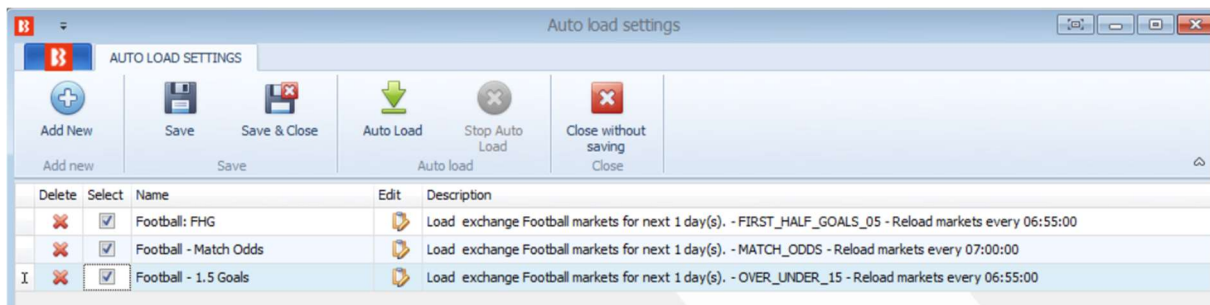

Part 2 – Set Up BFBot Manager

Enter a name under Tipster Service and paste the Google Sheets link in URL. Amend the Reload from URL to whatever timescale you want. Also make sure that the Active box is ticked.

Go to the Markets tab and select open Auto Load. Set whichever markets you are trading to auto load. Remember to set the reload duration.

Paste into the Google Sheets spreadsheet

	A	B	C	D	E	F	G	H
1	Provider	SelectionId	EventId	Country	League	Date	Home	Away
2			32342136	Turkey	Super Lig	17/05/2023 18:00	Karagumruk	Adana Demirspor
3								
4								

Add the Provider and SelectionId to columns A and B

	A	B	C	D	E	F	G	H
1	Provider	SelectionId	EventId	Country	League	Date	Home	Away
2	Football: Back O1.5	1221386	32342136	Turkey	Super Lig	17/05/2023 18:00	Karagumruk	Adana Demirspor
3								

For ease of reference I keep a list of the Provider and Selection IDs on the second sheet of the spreadsheet. This is purely optional but If you do decide to do this, just ensure that when you publish to web you only publish Sheet1 and not the Entire Sheet.

Going back into the Tips Form you should find your selections loaded.

Tipster/provider	Event ID	Market ID	Selection ...	Event	Market	Selection	Market ...	Start time	Bet type	Stake	Points	Price	Min price	Max pri...	BSP	B...	Tip import time
Football: Back ...	32342136	1.214066...	1221386	Fath Karagumruk 1...	Over/Un...	Over 1.5 Goals	OVER...	2023-05-17 18:00	UNKNOW...	0	0	0	1.01	1000			2023-05-17 15:32

For the following days selections, delete the old selections from the Google Sheet spreadsheet and enter the new selections.
